What Is Trx Infinity and Why Join:

Trx Infinity is the first ever site made for the sponsors to be the primary beneficiary using PIF strategy. It is a Company Forced Straight Line Compensation Plan (1x2) with unlimited automated reentries, and it also feeds itself to help maintain forward progress in financial movement.

COMPENSATION PLAN:

Trx Infinity is a company forced straight line (1x2) where you get paid by the two positions filled in your matrix, one after the other. You are then reentered at the end of the line to keep you earning over and over again to INFINITY! In the example above, YOU get paid by John and Jane. You then get a FREE position paid for by Trx Infinity at the back of the line which will pay John. Bill joins who also pays John and now John is given a FREE position at the end of the line. Then John and the person who joins after John will now pay Jane. Then Jane will get a free position at the end of the line. This continues to INFINITY!
